

UNION VILLAGE

METROPIA

IT ALL COMES TOGETHER HERE

UNION [yoon-yuhn] noun

Something formed by uniting two or more things; combination.

Elegant architecture, world-class design, and a backdrop of natural beauty combine to create Union Village, a master-planned community elevating the way we live. The idea is simple: take distinctive homes and modern amenities, add abundant green space, sustainable building practices, and a location that offers urban access with small town appeal. The result? A master-planned masterpiece of exceptional design.

Coming to 16th Avenue and Kennedy Road, Union Village offers the small town charm and character of Unionville, with the access and opportunity of the Markham metropolis. Here we're creating a landscape of beautiful homes and new local landmarks. We're designing sprawling parks and strong community. We're introducing welcoming streetscapes and diverse architectural character, all woven into the fabric of a new neighbourhood residents will be proud to call home.

An aerial photograph of a lush green park. A network of paved paths winds through the landscape, which is filled with various trees and grassy areas. In the background, a residential neighborhood with houses and a school building is visible under a clear blue sky. The overall scene conveys a sense of a well-integrated community and natural environment.

— THE UNION OF —
COMMUNITY & NATURE

A MASTER-PLANNED MASTERPIECE

ARCHITECTURE & DESIGN

We've carefully considered every last detail to create a community that looks and feels like an established neighbourhood. Choose from a variety of architectural styles and floorplans – there's something to suit every taste. Spacious single-family homes, a variety of townhomes, all in perfect harmony. Interiors with expertly finished, feng shui-optimized, spaces that support a healthier, happier way of life.

PARKS & NATURE

Outside, nature takes centre stage with preserved wetlands, parks, greenspace, and new pedestrian and cycling trails. There are places to play, socialize, stay active, and to sit and admire the beauty of the landscape. All the elements of a thriving neighbourhood, with bold leaps forward in design.

LOCATION, LOCATION, LOCATION

Within the master-planned community, Union Village offers a plethora of thoughtful neighbourhood amenities, but the location also provides a convenient connection to the city beyond. Historic Main Street Unionville is just minutes away. The bustling energy of Markham is all around. The 400-series highways, York Region Transit, Viva Transit, and GO Transit keep residents connected near and far. Relax in the comfort of a beautiful new home or get out and explore. Everything you want awaits you.

A FRIENDLY FIRST IMPRESSION

A series of elegant gateways welcome residents and visitors to the community, segueing into distinct neighbourhoods and branching off into pedestrian paths and tree-lined streets. Each entrance offers a sophisticated sense of arrival to the thriving new community, a bustling streetscape connecting users to home, work, school, and play.

Two people walking on a path in the foreground.

A person carrying a child on their shoulders walking on a path.

A bicycle parked near one of the houses.

A BREATH OF FRESH AIR

The best neighbourhoods share one thing in common – abundant green space. With plans for several new parks, preserved wetlands and kilometres of off-street walking and biking trails provide outdoor amenities for all seasons. Refined lookouts and resting points transition to more rugged natural environments, giving residents multiple ways to connect with nature as soon as they step outside. The result is a balanced lifestyle where fresh air and time spent outdoors integrates easily into everyday living. A breath of fresh air for residents and a healthier community in which to live.

“The vision for Union Village is to create a community that fosters a sense of well-being by weaving together the natural and built environment into one cohesive urban fabric.”

Raymon Yim, Senior Urban Designer, NAK Design Strategies

NATURE'S NATURAL COLOUR PALETTE

Nearly two dozen new plant and tree species will live seamlessly with the existing preserved landscape, providing a rainbow of colour throughout the community.

AMERICAN ARBORVITAE

'Jeffersred'

BLACK EYED SUSAN
Rudbeckia fulgida
'Goldstrum'

JAPANESE BARBERRY
Berberis thunbergii
'Crimson Pygmy'

MAIDENHAIR TREE
Ginkgo biloba
'Fastigiata'

A TRULY COMPLETE COMMUNITY

A master-planned community presents a unique opportunity to provide the design differentiation and exclusivity of individual homes, while maintaining a cohesive urban fabric for the entire neighbourhood. At Union Village, that opportunity manifests in an arrangement of bold intention and grand design.

A palette of natural materials runs throughout the site. With an overall look and feel that seamlessly integrates man-made structures into the existing environment of the community. Residences, landmarks, paths, and parks feel like a natural extension of the wetlands, woodlots, and ponds, creating a sense of order and the feeling that everything is exactly as it should be.

“We meticulously selected materials that complement each other, applied across the many different styles of architecture.”

Steve Hukari, Associate, RN Design

A HOME FOR EVERY TASTE

SINGLE FAMILY HOMES | Single family homes come in four different lot sizes and six different architectural styles, ranging from Modern to Canadiana, French Country to Second Empire.

FRENCH

Key features:

Large multi-paned and arched picture windows with precast/stucco surrounds; tall, sloping, hipped rooflines; flared eaves and dormer windows.

Key materials:

Stucco and/or stone.

SECOND EMPIRE

Key features:

Mansard roof design; large multi-paned picture windows with precast/stucco surrounds; decorative railings and cresting dormer windows.

Key materials:

Stucco and/or stone.

FRENCH COUNTRY

Key features:

Large picture windows; decorative columns, brackets, and shutters; and tall, sloping rooflines.

Key materials:

Brick and/or stone.

CANADIANA

Key features:

Multi-gabled rooflines; large picture windows; heavy timber-inspired decorative brackets, columns, and entry feature.

Key materials:

Brick, stone, and/or hardie siding.

MEADOW 2, ELEV. A, 30'

MODERN

Key features:

Varied rooflines with raised parapets; large picture windows; and 'simplified' detailing through the use of canopies and material changes.

Key materials:

Brick, stucco, stone and/or metal siding.

MONARCH 5, ELEV. E, 43'

PERIOD REVIVAL | TUDOR

Key features:

Steep pitched multi-gable rooflines; portico-style entries with precast detailing; and large picture windows with brick/precast surrounds.

Key materials:

Brick, stone, and/or stucco.

REAR-LANE TOWNHOMES | Rear-lane townhomes at Union Village draw the overarching streetscape and vision of the community into a single townhome block that feels like it has evolved over time. This timeless architectural aesthetic is thoughtful, planned and unique. These homes include double car garages and two expansive terraces – one on the rooftop, the other off the main floor.

FRENCH

Key features:

Large multi-paned and arched picture windows with precast/stucco surrounds; dormer roof style; decorative railings.

Key materials:

Stucco and stone.

WEST COAST CONTEMPORARY

Key features:

Varying rooflines through the use of raised parapets; a more transitional approach to the modern style; large picture windows; clean lines.

Key materials:

Brick, stone, and stucco.

FRENCH COUNTRY

Key features:

Decorative columns and brackets; a classic traditional style.

Key materials:

Brick, stone, and stucco.

MODERN

Key features:

Varying rooflines through the use of raised parapets; large picture windows; clean lines; sleek materials.

Key materials:

Brick, stone, stucco and/or metal siding.

BACK-TO-BACK TOWNHOME TYPICAL BLOCK

BACK-TO-BACK TOWNHOMES | Back-to-back townhomes at Union Village are available in French Country or Modern / West Coast Contemporary styles and feature open concept layouts, full-height basements, and rooftop terraces, providing maximum space with a minimal footprint.

FRENCH COUNTRY

Key features:

Decorative columns and brackets; spacious balconies; a classic traditional style.

Key materials:

Brick, stone, and stucco.

TRADITIONAL TOWNHOMES | The traditional townhomes at Union Village are available in Tudor and Modern / West Coast Contemporary styles and offer open concept layouts, a finished rec room in the basement, and enchanting backyards.

MODERN | WEST COAST CONTEMPORARY

Key features:

Varying rooflines through the use of raised parapets and sloped roofs; large picture windows.

Key materials:

Brick, stone, stucco, and metal siding.

TRADITIONAL TOWNHOME TYPICAL BLOCK

GET ACTIVE OUTDOORS

City dwellers know the value of time spent outdoors, and at Union Village, residents don't have to go far to get their fill. New parks and green spaces connect throughout the neighbourhood via a network of paths and trails that crisscross the community, weaving a tapestry of green.

Friends and neighbours dot the lawns, kicking balls in the summer sunshine and making snow angels when winter comes, making the most of every season. Manicured open spaces combine with rugged woodlots, creating environments that are rustic yet serene. Meandering trails guide users of all ages on a journey through the great outdoors, a path to a healthier lifestyle filled with activity, social interaction, and good fun.

ROOTED IN TRADITION

Union Village expertly balances modern living with a sense of history in the preservation of the old Bur Oak tree, a symbol of the strength and longevity that will characterize Union Village for decades to come. The century-old tree will act as a meeting place in one of the community's many green spaces, designed to encourage social interaction. Neighbours will gather, friends will meet, and children will let their imaginations run wild.

— THE UNION OF —
FUNCTION & STYLE

A HOME IN BALANCE

A sense of tranquility is the common thread running through Union Village. From thoughtfully planned community paths to inviting interiors, every space has been designed to make you feel at home.

For interior plans, layouts have been fine-tuned by international feng shui master, Paul Ng. One of North America's top ranking experts in the field, Ng has personally approved every plan to ensure conformity to feng shui principles. These curated spaces will help residents enjoy more harmony, happiness and, overall, a better quality of life.

- Options for separated stoves and sinks (to avoid a clash between the energetic elements of fire and water).
- Staircases and entrances are kept a respectful distance apart (so that the main floor remains nourished by good energy).
- Front doors and back doors are offset (so as not to disturb the flow of chi, the vital life force).
- Avoidance of toilets which face a door (to ensure positive energy and wealth are not flushed away).

Live life in balance, in a community where every detail has been considered, and where life's energy freely flows.

Little
PRINCESS

SUSTAINABLE FEATURES

Minto Communities and Metropia are committed to creating communities that contribute to a healthier planet. At Union Village, that means easy access to green space and transit, connecting people to nature and to everywhere they need to go. It means innovative building features like cabinet integrated waste sorting and a way to make it easier to add solar panels in the future. It means quality living and a pledge to consume fewer natural resources, minimize waste, and reduce greenhouse gas emissions, while providing people with modern spaces to live, work, and play.

Extensive network of **trails, ponds, parks, wetlands, and green space** that provide easy access to nature and the outdoors.

ENERGY STAR® for New Homes certification means that independent industry professionals verify that your home meets advanced industry standards with a particular focus on air tightness and energy conservation, enabling approximately 20% better energy efficiency.

A **high performance envelope** will reduce heating and cooling needs, and provides a consistently comfortable temperature throughout the home. This is achieved through an extra layer of insulation outboard of the exterior walls and attention to detail during construction to ensure that the continuous air barrier delivers better air tightness.

Efficient mechanical systems include a **Heat Recovery Ventilation system** that delivers fresh, filtered air throughout the home.

LED lighting throughout the home lasts 1.5 x longer and consumes 33% less energy than compact fluorescents.

Water efficient fixtures to help reduce consumption by up to 30% and protect residents from rising utility costs.

HEALTH | Superior indoor air quality will be created through the use of healthier materials and finishes, as well as mechanical systems that will introduce fresh air throughout the home, creating a better environment for you and your family.

COMFORT | Homes will have a more consistent, comfortable temperature throughout. Our energy efficient home designs require less heating and cooling than a conventional home, while our sophisticated mechanical systems provide the ultimate in-home comfort.

SAVINGS | The energy efficiency of your home is approximately 20% superior than building code. The water efficient fixtures that come as standard mean that by buying a home at Union Village, you will be protecting yourself from rising utility costs.

COMMUNITY | Buying a home at Union Village makes it easier for you to maintain a small Environmental Footprint.

EV charging is made easier in the future with a conduit from the garage to the electrical panel.

Healthier materials and finishes such as **low VOC paint** and **Green Label Plus-certified carpeting** will improve indoor air quality.

Integrated under-counter waste stations to collect and separate recycling and general waste.

Solar panel installation on your roof is made easier with the conduit provided from the roof to the electrical panel.

Roof design optimized for maximum solar panel installation while maintaining streetscape design aesthetic (36', 43' and 50' single homes only).

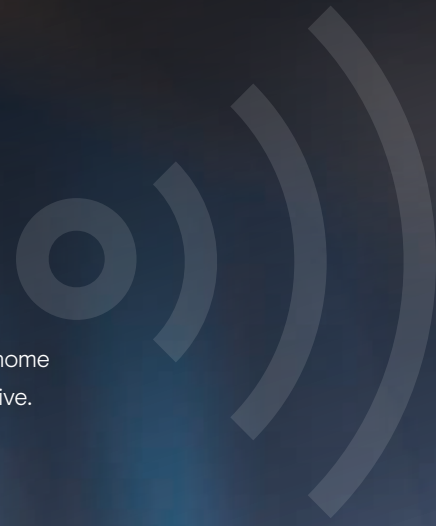

Individual metering of hydro, water, and gas.

ENERGY STAR® for New Homes certification is helping to eliminate between 0.5 to 1 tonne of carbon emissions per home each year.

This is equivalent to the amount of carbon sequestered by between 125 to 250 tree seedlings each year.

A CONNECTED HOME

At Union Village, every home has been carefully outfitted with a feature-rich smart home package to offer not only beauty, comfort, and convenience, but a smarter way to live.

TOWNHOME & SINGLE FAMILY HOME FEATURES

Enercare Smarter Home Essential Package lets you monitor, automate, and manage your home from anywhere in the world.

Smart Home Hub keeps you connected, providing data that helps you make smarter decisions for energy consumption.

Smart Home Thermostat lets you control the heating and cooling of your home even when you're not around, saving money and keeping you comfortable.

Water Leak Sensor lets you know about water leaks before they have a chance to do significant damage.

Enercare HVAC Performance Monitoring gives the information you need to help you save on energy costs.

Enercare Smarter Home Door Lock lets you automate certain tasks like locking your front door or turning off the lights when you leave the house.

Enercare Smarter Home Outdoor Camera lets you keep an eye on what's happening, even when you're not home.

Enercare Smarter Home app lets you access all these features from your smartphone or tablet.

— THE UNION OF —
HISTORIC & URBAN

URBAN LIVING WITH SMALL TOWN CHARM

Union Village delivers a modern lifestyle without compromise. The master-planned community sits next to the charming heritage village of Unionville, and within the thriving metropolis of Markham. Residents will join one of the fastest growing municipalities in Ontario and the most ethnically diverse community in Canada.

This is one of the only places where historic fairs and thriving business centres overlap. It's a place where, in a population of 350,000+, you'll still meet familiar faces when you walk down the street. It's social connection and access to infrastructure in one amazing package. The best of all worlds.

THE THRIVING CITY OF MARKHAM

Union Village sits within Markham, Canada's 16th largest city, packed with an eclectic mix of old and new. Enjoy a vibrant downtown with urban amenities and cultural attractions that include award-winning community centres and libraries, top-performing schools, prestigious neighbourhoods, exciting events, and an array of retail, restaurants, and entertainment.

The Markham Museum tells the story of the city's history and growth.

The Flato Markham Theatre hosts over 300 performances each season, everything from operas to odes to David Bowie.

This city is home to over 200 parks and Markham's Green Spine, connecting Rouge Park, the Milne Dam Conservation area, Mount Joy Lake Park, and Toogood Pond Park.

Markham is one of a handful of "majority-minority" cities in the country, where a plethora of diverse ethnic groups combine to create an incredible tapestry of cultures. It's no wonder that it's the ideal place to welcome new experiences and find the things that feel like home.

THE CHARM OF HISTORIC UNIONVILLE

Dating back 225 years, the historic town of Unionville attracts thousands of visitors annually. People flock to Main Street to see the inviting storefronts, century homes, and charming streetscapes that create a postcard-perfect small town.

Village favourites include:

The Varley Art Gallery featuring original works by F.H. Varley and his fellow peers in the renowned Group of Seven.

Flavours of Unionville selling ice cream by the scoop from a walk-up window.

The Old Firehall Confectionery a destination for artisanal chocolates and confections in the old community firehall from the early 1800s.

The Unionville Festival an annual summer event featuring dancing, concerts, a kids' fun zone, a 5K race, local vendors and a grand parade.

A SOLID PLACE TO GROW

Markham's economy is diverse and includes strong industry clusters in technology, life sciences, financial services, design, engineering, and more. Here, businesses find skilled workers from around the world who are drawn to Markham for its exceptional quality of life and solid opportunities for growth. This is where fortune, talent, and wellbeing intersect.

A high tech capital:

— THE UNION OF —
VISION & INNOVATION

THE UNION OF TWO LEADING DEVELOPERS

As two of the most recognized and respected names in development, both Minto Communities and Metrovia were both perfectly positioned to take on the creation of a master-planned community of unprecedented scale. Thus, the decision to partner was not born of necessity, but of the desire to create an even greater synergy and give rise to one of the most ambitious and impressive new neighbourhoods in the GTA. These two industry giants had a vision, to create a complete community, offering residents more choice, more green space, more quality, and more connection than ever before, inviting people to expect more from their home.

METROPIA

For more than 60 years, Minto Communities has been building new homes, master-planned communities, and condominiums, one home and one relationship at a time. When you choose a Minto Communities home, you're choosing more than just a homebuilder - you're choosing a trusted partner to help you along every step of your home buying journey.

Bringing together the skills, energy and talents of over twelve hundred employees, our team has designed and built more than 60,000 homes in Toronto, Ottawa and Florida.

We believe that building better homes begins by committing to doing what's right. In times when it matters most, we let our values guide us: accomplishment, partnership, and innovation. That means hard work and a commitment to quality and craftsmanship, having the courage to stand for what we believe, and always holding ourselves accountable. Every new milestone, innovation, and community has been born out of our mission to build healthy, thriving, vibrant communities - and we couldn't be prouder of all we've achieved.

METROPIA

Metropia is a Toronto-based premier real estate developer of master-planned communities and condominium residences across Canada.

With over 20 projects nationwide that span multi-unit residential buildings, exclusive homes, and master-planned communities encompassing residential, retail, and corporate space, Metropia's expertise covers every facet of the development industry, from land acquisition, to securing approvals, to site and building design, to award-winning customer support.

The company has developed an outstanding reputation for quality construction, thriving communities, solid integrity, and exceptional customer care. The pursuit of quality and excellence continues to drive Metropia forward, inspiring them to change skylines and neighbourhoods, and redefine the meaning of home.

A VISIONARY TEAM

RN DESIGN

RN Design is an industry-renowned architectural firm founded by Rob Nicolucci in 1991. Over the past three decades the practice has grown into one of the largest low-rise residential design firms in Canada, servicing some of the most influential homebuilders across Ontario and beyond. Driven to deliver superior quality and innovative solutions to a site's unique requirements, RN has proven to be influential in creating some of the most beloved streetscapes across Ontario. At Union Village they have once again applied their professional expertise to create a community that is beautiful, friendly, inspiring, and above all, welcoming to everyone who enters its gates.

NAK DESIGN STRATEGIES

NAK has had an impact on the world around us for more than three decades. Founded in 1987, NAK is widely recognized as one of North America's leading landscape architecture and urban design practices. With work spanning the public and private sectors, significant public spaces, community master plans and unique private commissions, NAK has an established reputation for design creativity that is elevated by an executional approach unmatched in its rigour.

NAK believes in an approach to landscape architecture and urban design that contributes to the health and viability of the communities we live and work in. Our practice is acknowledged for creating economic and social impact and unlocking the full potential of designed environments.

METROPIA
